

Dear HR,

My name is Abubaker, and I am currently in the fifth semester of my Bachelor of Science in Computer Science program at **FAST-NUCES Islamabad** Campus.

I am writing to express my strong interest in lantrotech. As a highly motivated and passionate Full-Stack developer with a diverse background in both academic and practical experiences, I believe I am well-suited to contribute to your team and help drive innovation at lantrotech.

I am working as a **Full Stack Developer at KDD Lab Fast NU CES**, where I had the opportunity to work on a wide range of projects that honed my skills in software development and problem-solving. This experience has equipped me with a solid foundation in programming and a keen understanding of software engineering principles.

During my time at Grayhat, I completed an **internship as a Game Developer**, which allowed me to work with technologies such as React, GitHub, Phaser, and Playroomkit. This experience not only expanded my technical skill set but also enhanced my ability to collaborate effectively with cross-functional teams and meet project deadlines.

In addition to my professional experiences, I have been actively involved in freelance work on Upwork, where I **have successfully delivered more than 20 websites** to satisfied clients. This has provided me with valuable insights into client communication, project management, and the importance of delivering high-quality work.

Furthermore, I am **currently leading a team of 18th batch students at Fast NU CES Islamabad**, where I share my knowledge and mentor them in various aspects of web development. This role has allowed me to further develop my leadership, communication, and teamwork skills.

I am also passionate about personal projects, and I am **currently working on a project known as the "Quran App,"** designed to be compatible at an industry level. This initiative showcases my dedication to continuous learning and my commitment to developing meaningful and impactful software solutions.

Thank you.

Best Regards,  
Abubaker.
